Connect with us—at **your** convenience.

Sunday afternoon and you just realized your pet is almost out of medication? Checking your mail at 11pm and see a reminder card from us that your pet is due? No problem. Log in to your PetSite anytime and let us know what your pet needs. We'll respond by the next business day!

Why should I access my PetSite today?

You never know when or where an emergency will occur. Log in today to ensure that you have access to your pet's vital health information—before an emergency arises.

Nobody likes "spam" —including us!

Rest assured, we will only use your email address to send notifications about your pet's health and important hospital news.

To ensure you receive important emails from us, please add donotreply@petsites. com to your email program's safe senders list or address book.

Access your PetSite on your computer or on your phone with PetSites™ Mobile!

Install the FREE PetSites™ Mobile app to have your pet's health information at your fingertips from anywhere.

The free app is available for your mobile devices at:
